STATE OF FLORIDA AWARDS INFORMATION TECHNOLOGY CONSULTING CONTRACT TO INTEGRATED COMPUTER SOLUTIONS, INC.

FOR IMMEDIATE RELEASE
Montgomery, AL, September 4, 2009

Integrated Computer Solutions, Inc., a full-service information security and technology consulting firm headquartered in Montgomery, AL, has been awarded a 3-year contract by the State of Florida for information technology consulting and staff augmentation services. The contract, awarded through the State of Florida's Department of Management Services, will allow all Florida state, county, and municipal agencies as well as state educational institutions to acquire information technology services that meet the highest technical and policy standards for legislative and regulatory compliance.

ICS has been serving the State of Florida since 2004, providing IT services to the Florida Department of Revenue, Department of Children and Families, Department of Environmental Protection, Agency for Health Care Administration, and the Agency for Workforce Innovation. ICS provides similar support to public sector agencies from Alabama to Delaware and Georgia to California.

"ICS is proud to continue our legacy of providing the highest caliber of information security and technology services to the State of Florida," said Steve Goldsby, Chief Executive Officer of ICS, Inc. "ICS understands the unique challenges that face agencies in the public sector, and we are recognized for providing solutions that help ensure these agencies are able to serve their citizens effectively and efficiently, each and every day," he said.

ICS is headquartered in Montgomery, Alabama and maintains a permanent office in Tallahassee, Florida.

Integrated Computer Solutions, Inc. (www.ICSInc.com) is a full-service information security and technology consulting and professional services firm headquartered in Montgomery, AL, with operating locations throughout the United States. Established in 1997, ICS provides a robust portfolio of technology and information security services to a wide range of Federal, State, and Fortune 1000 clients. The services that ICS offers include outsourcing, staff augmentation and support, network penetration testing, application vulnerability testing, disaster recovery and business continuity planning, risk assessments, WAN optimization, forensics, and incident response services.
